

## Welcome to the torbo newsletter 03/2009!

In the current newsletter you will find important Datas & Facts, more informationen about torbo and the technology of wet sandblasting. Enjoy your reading. The torbo team will be happy to hear from you - via e-mail, fax or a phone call - should you have any questions or suggestions about your special applications!!

### Tunnelrenovation in Portugal

Image 1: One of two worktrains in Portugal

The company Brawmingen has got the contract for cleaning 22,000 square metres on six railroad tunnels in Portugal. Two worktrains with six torbo machines are doing this job each day from midnight to 5 o'clock in the morning.

See the first impressions of the system used in the tunnel. Average production is more then 23 square metres per machine / hour. The railroad company is very pleased about the results and said more tunnel contracts will be undertaken.

### Do we meet at the Entsorga-Enteco?

torbo take part this year on the trade fair Entsorga-Enteco. The fair is from the 27th to the 30th of October, 2009 in Cologne / Germany. The Entsorga is an international trade fair for waste industry and environmental technology. On this fair various exhibitors present themselves in the areas of incineration & renewable energy, municipal services & environmental services, air quality control & emissions protection etc. The Entsorga at the year 2006 was very successful for torbo and so we are taking part again at this exhibition. Hence, our sales representatives would be glad to welcome you at our torbo booth in hall 7 / H-013.

### Asbestos City of Uusikaupunki Finland

The torbocar AC76 sold at the beginning of this year to contractor Tasotiivistys Oy was used first for the cleaning of 1033 m<sup>2</sup> of asbestos paint in the Yrityskallio building in Uusikaupunki.

Image 5: Yrityskallio building

The results were very good. In one 12 hours day 200 m<sup>2</sup> was blasted. The job was done with coalslag 0,5 to 1,2 mm.

torbocar AC76

You will find regular und up-to-date information about the technology, the various applications of torbo system and current trade fairs at our website:
